

Project Demo Planning

Date	3 July 2026
Team ID	XXXXXX
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the challenges students face while learning and the need for emotion-aware personalized learning support.	2	Member 1
2	Project Overview & Architecture	Present the system architecture, workflow, technologies used (BiLSTM, BERT, Gemini AI, Streamlit), and overall solution.	3	Member 2
3	Emotion Detection Demonstration	Demonstrate text preprocessing, BiLSTM prediction, BERT prediction, mixed emotion detection, and confidence scores.	4	Member 3
4	AI Learning Guidance & Analytics	Demonstrate AI-generated learning guidance, analytics dashboard, session history, and emotion visualization.	3	Member 4
5	Technical Implementation	Explain project folder structure, model integration, Streamlit application, and deployment process.	3	Member 5
6	Results, Future Scope & Conclusion	Present project outcomes, limitations, future enhancements, and conclude the demonstration.	2	Member 2

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why students require AI-powered emotion-aware learning assistance.
2	Solution Overview	Present the architecture, workflow, technologies, and AI models used.
3	Live Application Demonstration	Show the Streamlit application, emotion prediction, AI guidance, model comparison, and analytics dashboard.
4	Results & Analytics	Demonstrate emotion history, visualization charts, and model performance.
