

Demonstration of Proposed Features

Date	2 July 2026
Team ID	XXXXXX
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	Text Preprocessing & Cleaning	Cleans, tokenizes, and preprocesses learner input before prediction.	Implemented	Yes	Working successfully
2	BiLSTM Emotion Detection	Predicts learner emotions using a Bidirectional LSTM deep learning model.	Implemented	Yes	Accurate emotion classification achieved
3	BERT Emotion Classification	Performs contextual emotion detection using a fine-tuned BERT model.	Implemented	Yes	Improved contextual understanding
4	Mixed Emotion Detection	Identifies primary and secondary emotions with confidence scores.	Implemented	Yes	Supports multi-emotion analysis
5	AI-Powered Learning Guidance	Generates personalized learning recommendations using Google Gemini AI.	Implemented	Yes	Context-aware and empathetic responses generated
6	Interactive Streamlit Dashboard	Provides emotion prediction, model comparison, analytics, and session history.	Implemented	Yes	Fully functional user interface

Feature Implementation Summary:

Particular	Count
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
